General Information

Boadzulu Island is located closely to the Retreat and is commonly known as Bird Island. It is in the southern part of Lake Malawi's National Park, part of the World Heritage Site and home to the biggest breeding colony of White Breasted Cormorants in Southern Africa.

Crystal clear waters and a rich population of the colorful Mbuna Cichlid provide a perfect spot for snorkeling and swimming excursions. Bird lovers will enjoy being surrounded by fish eagles, cormorants and other beautiful birds.

Explore the island on a sunset cruise and savor sun downers in a romantic setting on the island. Watch the fishermen from the villages make their way to their nightly fishing expeditions and see the sun set over the mountains surrounding Lake Malawi. An experience you will not forget!
